

May 28, 2026

Dear Vendor,

We are excited to invite you to participate in the 43rd Street Festival taking place on August 9th at the Dr. Martin Luther King Jr. High School practice facility in Chicago.

This community-centered event is designed to bring together residents, local businesses, cultural organizations, and entrepreneurs for a full day of live music, entertainment, food, community engagement, and cultural experiences along the 43rd Street corridor.

The festival is expected to attract a strong and diverse audience from across the South Side and surrounding communities, creating a valuable opportunity for vendors to showcase products, services, and brands directly to attendees.

Vendor participation will play an important role in helping create a vibrant and engaging experience for the community while supporting local business growth and economic activity.

Additional details regarding setup times, vendor requirements, permits, and operational logistics will be shared upon confirmation.

Thank you for your consideration. We look forward to the opportunity to work together for the 43rd Street Festival.

Sincerely,

Ty Harvey
